Parcel S95-052, Contract No. 55553, Task 03-02, DWG. 22,604
Quantum Project Number: H40098**

Dear Mr. Ho,

Quantum Environmental Consultants, Inc. (Quantum) has conducted an Environmental Site Assessment: Transaction Screen Process (TSP) evaluation for the property located at 3703 Southlawn Ave., Houston, Texas 77021, which is currently owned by the City of Houston. This TSP is being provided in accordance with the Authorization letter from Mr. Michael Ho, dated August 2, 2004.

The scope of services for this TSP included; a site reconnaissance, a review of available records of State and Federal regulatory authorities for the subject property and surrounding properties, the completion of an TSP questionnaire based on visual observations and owner/occupant interview(s), and reviewing fire insurance maps or consultation with the local fire department regarding industrial activities on or surrounding the subject property. The TSP questionnaire and regulatory review for this site are provided as Attachments 1 and 2, respectively. No media sampling was included in the scope of this TSP, nor was a preliminary asbestos survey or lead-based paint sampling included.

Quantum has performed this Environmental Site Assessment: Transaction Screen Process in accordance with generally accepted practices of the industry and generally followed guidelines from ASTM E1528-00. Personnel qualifications are provided in Attachment 3.

Based on the TSP evaluation process described above, the following conclusions of the subject property are provided:

- Mr. Robert Alexander (project manager), representing the City of Houston, completed the transaction-screen questionnaire for the subject property. Based on this completed questionnaire, no environmental issues were identified by Mr. Alexander. A copy of this completed transaction screen questionnaire is provided in Attachment 1.
- The subject property is located at 3703 Southlawn Street, Houston, Texas 77021, and consists of 0.8764 acres of vacant land. The areas surrounding the subject property consist of residential and vacant properties. No industrial properties, service stations, dry cleaners or other facilities, which might be suspected of potential environmental impact, were identified within the immediate vicinity of the subject property. A photograph of the subject property taken during the site reconnaissance is provided in Attachment 3.
- According to the United States Geological Survey (USGS) Park Place, Texas Quadrangle Topographic map dated 1998; surface water drainage in the area is generally towards the northwest. A (USGS) Quadrangle Topographic map and vicinity map are included in Appendix 4.
- The Federal Emergency Management Agency (FEMA) Flood Insurance Rate Map No. 48201C0880K indicated that the subject property is not within the 500-year flood plan for Harris County. A FEMA map is included in Appendix 4.
- No fault lines were identified on or near the subject property according to the Historical Active Faults in the Houston Metropolitan Area, Texas 1981. A copy of the fault map is provided in Appendix 7.
- A City Directory Search was conducted and found no listed environmental recognized conditions for the subject property or surrounding properties. No Sanborn map coverage was identified for the subject property. The City Directory Search and Sanborn explanation are provided in Appendix 7.
- The Houston Fire Department (HFD) was contacted regarding information on the subject property. Based on the letter provided in Attachment 5, no records or files for this site with the HFD were identified.

- No pole-mounted transformers or other potential PCB-containing equipment were identified on the subject property.
- The National Priority List (NPL) for Uncontrolled Hazardous Waste Sites issued by the Environmental Protection Agency (EPA), lists uncontrolled hazardous waste sites that require additional investigation to determine if they pose risks to the environment or to human health. No NPL sites were identified within a one-mile radius of the subject property.
- The Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) is a compilation of known or suspected uncontrolled or abandoned Hazardous Waste Sites which are under investigation by the EPA for the release or threatened release of hazardous substances. No CERCLIS sites were identified within a one-half mile radius of the subject property.
- The No Further Remedial Action Planned Report (NFRAP) was reviewed for facilities located within a one-half mile radius of the subject property. The NFRAP contains information pertaining to sites which have been removed from the EPA published CERCLIS database. No NFRAP sites were identified within a one-quarter mile radius of the subject property.
- The Resource Conservation and Recovery Information System (RCRIS) Corrective Action Sites (CORRACTS) database includes RCRIS sites with reported corrective action. One CORRACTS site was identified within a one-mile radius of the subject property. Based on the location and distance from the subject property, this site is not expected to adversely impact the subject property.
- The Resource Conservation and Recovery Information System (RCRIS) treatment, storage, and disposal (TSD) facilities pertain to facilities, which treat, store, or dispose of hazardous waste. No RCRIS-TSD sites were identified within a one-half mile radius of the subject property.
- The RCRIS Large-Quantity Generator list contains those sites, which generate more than 1,000 kilograms of hazardous waste per month. Two RCRIS large-quantity generator sites were identified within a one-quarter mile radius of the subject property. One generator site reportedly had no violations listed; therefore, this site is not expected to adversely impact the subject property. The second site is listed as Metal Coatings Corporation, which reportedly had fifteen "low priority" violations. However, this site is located approximately

one-quarter mile from the subject property, and thereby is not expected to adversely impact the subject property.

- The RCRIS Small-Quantity Generator list contains those sites, which generate between 100 and 1,000 kilograms of hazardous waste per month. No RCRIS small-quantity generator sites were identified within a one-quarter mile radius of the subject property or adjoining properties.
- The Emergency Response Notification System (ERNS) list is a national database containing information from spill reports made to Federal authorities including the EPA, the United States Coast Guard, the National Response Center, and the Department of Transportation regarding reported releases of oil and hazardous substances. The subject property was not identified as an ERNS site.
- The Texas State Superfund Quarterly Status Report contains information on abandoned or inactive hazardous waste sites in the State of Texas that do not qualify for federal Superfund action and cannot be resolved under the hazardous waste program or an agreed administrative order. Potential State Superfund sites receive a Hazard Ranking Score and a remedial investigation/feasibility study. If these studies suggest that the facility poses an imminent and substantial endangerment to the environment or public health and safety, the proposed site is formally listed on the State Superfund report. The Texas State Superfund is equivalent to the State CERCLIS. No State Superfund sites were identified within a one-half mile radius of the subject property.
- The Texas Commission on Environmental Quality (TCEQ) Permitted Solid Waste Facilities (LF) Directory is a comprehensive listing of all reported active and inactive permitted solid waste landfills and process facilities operating within the State of Texas. No LF sites were identified within a one-half mile radius of the subject property.
- The TCEQ Petroleum Storage Tank (PST) list is a comprehensive listing of all registered PSTs located within the State of Texas. No PST sites were identified within a one-quarter mile radius of the subject property. Also, the subject property and adjoining properties are not listed as LPST sites.
- The TCEQ Leaking Petroleum Storage Tank (LPST) file is a comprehensive listing of all reported leaking aboveground and underground petroleum storage tanks registered within the State of Texas. No LPST sites were identified within a one-half mile radius of the

subject property. Also, the subject property and adjoining properties are not listed as LPST sites.

- The Texas Voluntary Cleanup Program (VCP) sites database includes information on sites enrolled in the Texas Voluntary Cleanup Program. These sites have experienced some type of release or contamination of which cleanup is voluntarily initiated, typically by the property owner, following requirements within the Texas Voluntary Cleanup Program for an ultimate "No further action" letter by the TCEQ. Four VCP sites were identified within a one-mile radius of the subject property. Westco Building Property and 4601 Holmes Road has completed cleanup activities, and Chuck Davis Chevrolet has been terminated. The remaining facility, Sunnyside-Up Park, currently has on-going remedial activities addressing metal identified in soils. Based on the distance of these sites from the subject property, these sites are not expected to adversely impact the subject property.
- One Texas Industrial Hazardous Waste Notice of Registration site was identified by the records search within a one-quarter mile radius of the subject property. The TCEQ enters all information submitted by industrial and hazardous waste transporters, receivers (including recyclers), generators and one time shipments into a database that tracks industrial and hazardous waste generation and management activities in the state of Texas. Based on the reported activities of this surrounding location, this site is not considered likely to have adversely impacted the subject property.

Based on the information provided above, the TSP evaluation has revealed no recognized environmental conditions in connection with the subject property, which would warrant further investigation at this time.

This Environmental Transaction Screening evaluation was performed by Quantum in accordance with applicable ASTM Standards and generally accepted practices of the profession in performing similar studies in the same general area and during the same general time frame. Quantum observed the same degree of care and skill generally exercised by the profession under similar circumstances. Quantum's observations and findings cannot be considered as scientific certainties. The conclusions are based on our professional judgement regarding the significance of the limited information available during the course of this study. Specifically, Quantum does not and cannot represent that the subject property contains no recognized environmental conditions, and/or other latent conditions beyond that observed by Quantum in the course of this TSP. Personnel qualifications are provided in Attachment 6 and a legal description is provided in Attachment 7.

7. Guide to Transaction Screen Questionnaire

7.1 The following sets forth the guide to the *transaction screen questionnaire*. The guide accompanies the *transaction screen questionnaire* to assist the preparer in completing the questionnaire. Questions found in the *transaction screen questionnaire* are repeated in the guide.

7.2 If the preparer completing the *transaction screen questionnaire* is familiar with the guide from prior usage, the

questionnaire may be completed without reference to the guide.

7.3 The *site visit* portion of the guide considers most of the same questions set forth in the guide to *owner/occupant inquiry* because the *transaction screen process* requires both questions of *owners* and *occupants* of the property and observations of the property by the preparer.

7.4 Prior *environmental site assessment* usage procedures

13a. If the property is served by a private well or non-public water system, is there evidence or do you have prior knowledge that contaminants have been identified in the well or system that exceed guidelines applicable to the water system?	Yes	No	Unk	Yes	No	Unk	Yes	No
13b. If the property is served by a private well or non-public water system, is there evidence or do you have prior knowledge that the well has been designated as contaminated by any government environmental/health agency?	Yes	No	Unk	Yes	No	Unk	Yes	No
14. Does the owner or occupant of the property have any knowledge of environmental liens or governmental notification relating to past or recurrent violations of environmental laws with respect to the property or any facility located on the property?	Yes	No	Unk	Yes	No	Unk		
15a. Has the owner or occupant of the property been informed of the past existence of hazardous substances or petroleum products with respect to the property or any facility located on the property?	Yes	No	Unk	Yes	No	Unk		
15b. Has the owner or occupant of the property been informed of the current existence of hazardous substances or petroleum products with respect to the property or any facility located on the property?	Yes	No	Unk	Yes	No	Unk		
15c. Has the owner or occupant of the property been informed of the past existence of environmental violations with respect to the property or any facility located on the property?	Yes	No	Unk	Yes	No	Unk		
15d. Has the owner or occupant of the property been informed of the current existence of environmental violations with respect to the property or any facility located on the property?	Yes	No	Unk	Yes	No	Unk		
16. Does the owner or occupant of the property have any knowledge of any environmental site assessment of the property or facility that indicated the presence of hazardous substances or petroleum products on, or contamination of, the property or recommended further assessment of the property?	Yes	No	Unk	Yes	No	Unk		
17. Does the owner or occupant of the property know of any past, threatened, or pending lawsuits or administrative proceedings concerning a release or threatened release of any hazardous substance or petroleum products involving the property by any owner or occupant of the property?	Yes	No	Unk	Yes	No	Unk		
18a. Does the property discharge waste water (not including sanitary waste or storm water) onto or adjacent to the property and/or into a storm water system?	Yes	No	Unk	Yes	No	Unk	Yes	No

Question	Owner ⁷			Occupants (if applicable)			Observed During Site Visit	
	Yes	No	Unk	Yes	No	Unk	Yes	No
18b. Does the <i>property</i> discharge waste water (not including sanitary waste or storm water) onto or adjacent to the <i>property</i> and/or into a sanitary sewer system?								<input checked="" type="radio"/> No
19. Did you observe evidence or do you have any prior knowledge that any <i>hazardous substances or petroleum products</i> , unidentified waste materials, tires, automotive or industrial batteries, or any other waste materials have been dumped above grade, buried and/or burned on the <i>property</i> ?								<input checked="" type="radio"/> No
20. Is there a transformer, capacitor, or any hydraulic equipment for which there are any records indicating the presence of PCBs?								<input checked="" type="radio"/> No

Government Records/Historical Sources Inquiry

(See guide, Section 10)

21. Do any of the following Federal government record systems list the property or any property within the search distance noted below:

Federal NPL site list
Federal CERCLIS list
Federal CERCLIS NFRAP site list
Federal RCRA CORRACTS facilities list
Federal RCRA non-CORRACTS TSD facilities list
Federal RCRA generators list
Federal ERNS list

Approximate Minimum Search Distance,

23. Based upon a review of *fire insurance maps* 10.3.1.3 or consultation with the local fire department serving the *property*, all as specified in the guide, are any buildings or other improvements on the *property* or on an *adjoining property* identified as having been used for an industrial use or uses likely to lead to contamination of the *property*?

Yes ☒ No

The preparer of the *transaction screen questionnaire* must complete and sign the following. (For definition of "preparer" and "user," see 5.3 or 3.3.28.)

The *Owner* questionnaire was completed by:

Name
Title
Firm
Address

Phone number
Date
Preparer's relationship to site
Preparer's relationship to user (for example, principal, employee, agent, consultant)

The *Occupant* questionnaire was completed by:

Name
Title
Firm
Address

Phone number
Date
Preparer's relationship to site
Preparer's relationship to user (for example, principal, employee, agent, consultant)

The *Site Visit* questionnaire was completed by:

Name Beunne Beutnd
Title PM
Firm Quantum Environmental Consultants, Inc.
Address 11246 South Portland, Ste 704

Phone number 713761-8925
Date 9/23/04
Preparer's relationship to site
Preparer's relationship to user (for example, principal, employee, agent, consultant)

The *Government Records and Historical Sources Inquiry* questionnaire was completed by:

Name
Title
Firm
Address

Phone number
Date
Preparer's relationship to site
Preparer's relationship to user (for example, principal, employee, agent, consultant)

User's relationship to the site (for example, owner, prospective purchaser, lender, etc.)

If the preparer(s) is different from the user, complete the following:

Name of User
User's address

User's phone number

Copies of the completed questionnaires have been filed at:

Copies of the completed questionnaires have been mailed or delivered to:

Preparer represents that to the best of the preparer's knowledge the above statements and facts are true and correct and to the best of the preparer's actual knowledge no material facts have been suppressed or misstated.

Signature [Signature] Date 9/24/04
Signature _____ Date _____
Signature _____ Date _____

7. Guide to Transaction Screen Questionnaire

7.1 The following sets forth the guide to the *transaction screen questionnaire*. The guide accompanies the *transaction screen questionnaire* to assist the *preparer* in completing the questionnaire. Questions found in the *transaction screen questionnaire* are repeated in the guide.

7.2 If the *preparer* completing the *transaction screen questionnaire* is familiar with the guide from prior usage, the

questionnaire may be completed without reference to the guide.

7.3 The *site visit* portion of the guide considers most of the same questions set forth in the guide to *owner/occupant inquiry* because the *transaction screen process* requires both questions of *owners* and *occupants* of the *property* and observations of the *property* by the *preparer*.

7.4 *Prior environmental site assessment* usage procedures

*Vacant Tract
3703 Southlawn Street
Houston, Texas 77021

Notice of Disclaimer

Due to the limitations, constraints, inaccuracies and incompleteness of government information and computer mapping data currently available to Banks Information Solutions, Inc., certain conventions have been utilized in preparing the locations of all federal, state and local agency sites residing in Banks Information Solutions, Inc.'s databases. All EPA NPL and state landfill sites are depicted by a rectangle approximating their location and size. The boundaries of the rectangles represent the eastern and western most longitudes; the northern and southern most latitudes. As such, the mapped areas may exceed the actual areas and do not represent the actual boundaries of these properties. All other sites are depicted by a point representing their approximate address location and make no attempt to represent the actual areas of the associated property. Actual boundaries and locations of individual properties can be found in the files residing at the agency responsible for such information.

Waiver of Liability

Although Banks Information Solutions, Inc. uses its best efforts to research the actual location of each site, Banks Information Solutions, Inc. does not and can not warrant the accuracy of these sites with regard to exact location and size. All authorized users of Banks Information Solutions, Inc.'s services proceeding are signifying an understanding of Banks Information Solutions, Inc.'s searching and mapping conventions, and agree to waive any and all liability claims associated with search and map results showing incomplete and or inaccurate site locations.

Environmental FirstSearch Federal Databases and Sources

ASTM Databases:

CERCLIS: *Comprehensive Environmental Response Compensation and Liability Information System.* The EPA's database of current and potential Superfund sites currently or previously under investigation. Source: Environmental Protection Agency.

Updated quarterly.

CERCLIS-NFRAP (Archive): *Comprehensive Environmental Response Compensation and Liability Information System Archived Sites.* The Archive designation means that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL). This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Updated quarterly.

ERNS: *Emergency Response Notification System.* The EPA's database of emergency response actions. Source: Environmental Protection Agency. Data since January, 2001, has been received from the National Response Center as the EPA no longer maintains this data.

Updated quarterly.

FINDS: *The Facility Index System.* The EPA's Index of identification numbers associated with a property or facility which the EPA has investigated or has been made aware of in conjunction with various regulatory programs. Each record indicates the EPA office that may have files on the site or facility. Source: Environmental Protection Agency.

Updated semi-annually.

NPL: *National Priority List.* The EPA's list of confirmed or proposed Superfund sites. Source: Environmental Protection Agency.

Updated quarterly.

RCRIS: *Resource Conservation and Recovery Information System.* The EPA's database of registered hazardous waste generators and treatment, storage and disposal facilities. Included are RAATS (RCRA Administrative Action Tracking System) and CMEL (Compliance Monitoring & Enforcement List). Source: Environmental Protection Agency.

RCRA TSD: *Resource Conservation and Recovery Information System Treatment, Storage, and Disposal Facilities.* The EPA's database of RCRIS sites which treat, store, dispose, or incinerate hazardous waste. This information is also reported in the standard RCRIS detailed data.

ASTM Databases (continued):

RCRA COR: Resource Conservation and Recovery Information System Corrective Action Sites. The EPA's database of RCRIS sites with reported corrective action. This information is also reported in the standard RCRIS detailed data.

RCRA GEN: Resource Conservation and Recovery Information System Large and Small Quantity Generators. The EPA's database of RCRIS sites that create more than 100kg of hazardous waste per month or meet other RCRA requirements. Included are RAATS (RCRA Administrative Action Tracking System) and CMEL (Compliance Monitoring & Enforcement List).

RCRA NLR: Resource Conservation and Recovery Information System sites No Longer Regulated. The EPA's database of RCRIS sites that create less than 100kg of hazardous waste per month or do not meet other RCRA requirements.

All RCRA databases are Updated quarterly

Environmental FirstSearch Federal Databases and Sources

Non-ASTM Databases:

HMIRS: Hazardous Materials Incident Response System. This database contains information from the US Department of Transportation regarding materials, packaging, and a description of events for tracked incidents.

Updated quarterly.

NCDB: National Compliance Database. The National Compliance Data Base System (NCDB) tracks regional compliance and enforcement activity and manages the Pesticides and Toxic Substances Compliance and Enforcement program at a national level. The system tracks all compliance monitoring and enforcement activities from the time an inspector conducts and inspection until the time the inspector closes or the case settles the enforcement action. NCDB is the national repository of the 10 regional and Headquarters EPCRA/TSCA Tracking System (FTTS). Data collected in the regional FTTS is transferred to NCDB to support the need for monitoring national performance of regional programs.

Updated quarterly

NPDES: National Pollution Discharge Elimination System. The EPA's database of all permitted facilities receiving and discharging effluents. Source: Environmental Protection Agency.

Updated semi-annually.

NRDB: National Radon Database. The NRDB was created by the EPA to distribute information regarding the EPA/State Residential Radon Surveys and the National Residential Radon Survey. The data is presented by zipcode in Environmental FirstSearch Reports. Source: National Technical Information Service (NTIS)

Updated Periodically

Nuclear: The Nuclear Regulatory Commission's (NRC) list of permitted nuclear facilities.

Updated Periodically

PADS: PCB Activity Database System

The EPA's database PCB handlers (generators, transporters, storers and/or disposers) that are required to notify the EPA, the rules being similar to RCRA. This database indicates the type of handler and registration number. Also included is the PCB Transformer Registration Database.

Updated semi-annually.

Receptors: 1995 TIGER census listing of schools and hospitals that may house individuals deemed sensitive to environmental discharges due to their fragile immune systems.

Updated Periodically

Non-ASTM Databases (continued):

RELEASES: Air and Surface Water Releases. A subset of the EPA's ERNS database which have impacted only air or surface water.

Updated semi-annually.

Soils: This database includes the State Soil Geographic (STATSGO) data for the conterminous United States. It contains information regarding soil characteristics such as water capacity, percent clay, organic material, permeability, thickness of layers, hydrological characteristics, quality of drainage, surface, slope, liquid limit, and the annual frequency of flooding. Source: United States Geological Survey (USGS).

Updated quarterly

TRIS: Toxic Release Inventory System. The EPA's database of all facilities that have had or may be prone to toxic material releases. Source: Environmental Protection Agency.

Updated semi-annually.

Environmental FirstSearch Texas Databases and Sources

1. **LANDFILLS:** The Texas Natural Resource Conservation Commission listing of all permitted solid waste landfills, transfer stations, and incinerators as maintained by Office of Office of Permitting, Remediation and Registration, Waste Permits Division, Municipal Solid Waste Permits Section.

Updated Yearly

2. **LUST:** Leaking Underground Storage Tanks. The Texas Natural Resource Conservation Commission listing of all leaking underground petroleum storage tanks as maintained by the Office of Office of Permitting, Remediation and Registration, Remediation Division, Petroleum Storage Tank Program.

Updated Quarterly

3. **STATE SITES:** Currently includes sites from three programs of The Texas Natural Resource Conservation Commission's Office of Permitting, Remediation and Registration, Remediation Division. The State Superfund Registry listing is maintained by the Superfund Site Discovery and Assessment Program. Also included are all sites in the Voluntary Cleanup Program (VCP) and the Innocent Owner/Operator Program (IOP).

Updated Quarterly

4. **UST:** The Texas Natural Resource Conservation Commission's Petroleum Storage Tank Registration File as maintained by the Office of Permitting, Remediation and Registration, Remediation Division, Petroleum Storage Tank Program. This database includes above ground storage tanks.

Updated Quarterly

5. **STATE WELLS:** Public Water Supply Sources. The Texas Natural Resource Conservation's database of public drinking water well and surface water intake sites in the state of Texas. The locations for these data were obtained from the Office of Permitting, Remediation and Registration, Water Supply Division as recorded from several sources:

Texas Department of Agriculture (TDA)
Texas Water Development Board (TWDB)
Texas Natural Resource Conservation Commission (TNRCC), or predecessor agencies.
Well Driller
Engineering/Environmental Firm

USER PROVIDED INFORMATION

BENNIE LEE BENFORD, JR., CAPM
Environmental Engineer/Project Manager

EDUCATION

B.S., Civil Engineering Technology; Chemistry
Texas Southern University, 1991

PROFESSIONAL REGISTRATION

- LPST Corrective Action Project Manager (TX #CAPM00784, 1996)

PROFESSIONAL SUMMARY

Mr. Benford has over 14 years of experience in retail marketing petroleum industry and hazardous waste management; remediation of soil and water treatment; groundwater compliance; Phase I and II; LPST reimbursement preparation and negotiations and RCRA soil and water investigations.

PROFESSIONAL EXPERIENCE

- **Project Engineer and Field Manager** for more than 200 PST assessment projects in Texas and Louisiana. Managed and/or supervised more than 300 underground storage tank closure projects. Coordinated and managed numerous soil and groundwater remediation systems. Supervised field operations associated with soil incineration, dual phase extraction, emergency response and well installation projects. Managed numerous remediation system O&M projects ensuring optimal remedial efficiencies. Performed in excess of 1500 sites monitoring, gauging, and sampling events. Performed several aerial assessments for industrial and real estate transactions. Trained more than 30 field technicians, geologists, and engineers in strict field protocol and QA/QC parameters with regard to regulatory and institutional guidelines.
- **Project Manager** for various projects including RCRA facility investigations, soil and Groundwater investigations, UST closures, Phase I & II Assessments, Risk Assessments and regulatory negotiations.

TRAINING / CERTIFICATIONS

- HAZWOPER OSHA 1910.120 40-Hour Training with 8-Hour Management Training and Annual Refreshers
- Corrective Action Project Manager – TCEQ Certification - 1996
- Motorola – Quest for Quality Training – 1999
- UST Management and Compliance Assistance Seminar - 2000
- Applied Environmental Statistics, Darcy Environmental Group, Inc. – 1999 & 2000
- Texas Risk Reduction Program (TRRP), Groundwater Services – 2001
- MTBE Treatment Technology: Design/Implementation – 2001
- TPDES Multi-Section Storm Water Permit Training- 2002

PRESENTATIONS

- Benford, Jr., Bennie and Tina Luckman, "Phase II Environmental Site Assessments-Due Diligence." Presented to the SBA in Houston, Texas in May 2001.
- Benford, Jr., Bennie and Tim Craft, "Risk Based Assessment for LPST Sites." Presented in Quantum Seminar in Houston, Texas to Chevron, Shell and Texaco in May 1997.

William L. Beasley
QA/QC Project Manger

EDUCATION

B.A., Management Accounting
Texas Southern University, 1985

PROFESSIONAL REGISTRATION

- Registered NCA Certified Lab Technician

PROFESSIONAL SUMMARY

Mr. Beasley has approximately 6 years experience in environmental consulting and field investigations. Served as QA/QC Project Manager on Texas Department of Transportation projects, and Texas Natural Resource Conservation Commission projects. His project experience includes cost estimating, scheduling, field engineering and water/soil classification and disposal.

PROFESSIONAL EXPERIENCE

- **QA/QC Project Manager** performed numerous Phase I and II site assessments and sediment sampling investigations. Researched and made recommendations for aboveground fuel containment system, and supervised installation. Performed various projects including RCRA facility investigations, soil and groundwater investigations, emergency response, UST closures and Risk Assessments and regulatory negotiations.

TRAINING / CERTIFICATIONS

- HAZWOPER OSHA 1910.120 24-Hour Training

USER PROVIDED INFORMATION

Parcel S95-052
3703 Southlawn Ave.

CITY OF HOUSTON, TEXAS
DEPARTMENT OF PUBLIC WORKS & ENGINEERING
STREET AND BRIDGE DESIGN SECTION

Southlawn Water
Plant Site
3703 Southlawn Ave.
Parcel No. S95-52
Drawing No. 22,604

A tract or parcel of land containing 38,175 square feet (0.8764 acre) more or less, being part of Lots 8 thru 17 of Block 2, Southlawn Subdivision of which a plat or map is recorded in Volume 5, Page 46 of the Map Records of Harris County, Texas; Lots 8 thru 12 of Block 2 having been conveyed to City of Houston by deed filed in Volume 3257, Page 264 of the Harris County Deed Records (H.C.D.R.) while Lots 13 thru 17 of Block 2 were conveyed to City of Houston by deed filed in Volume 3257, Page 259, H.C.D.R.; said 38,175 square foot tract being further located in the L. Gladitch Survey, Abstract No. 307 and being more particularly described by metes and bounds as follows:

COMMENCING at a found 5/8-inch iron rod marking the common south corner of Lots 17 and 18 of said Block 2 and located in the existing north right-of-way line of Southlawn Avenue, 40 feet wide; thence N 17° 28' 47" E 10.00 feet along the common line of said Lots 17 and 18, to a set 5/8-inch iron rod in the proposed north right-of-way line of Southlawn Avenue, for the southeast corner of the tract described herein;

THENCE N 72° 31' 13" W 225.00 feet along a line parallel with and 10.00 feet northerly of the existing north right-of-way line of Southlawn Avenue, to a set 5/8-inch iron rod for a proposed cut-back corner;

THENCE N 27° 31' 13" W 21.21 feet along the proposed cut-back corner line, to a set 5/8-inch iron rod for a second proposed cut-back corner; from said set 5/8-inch iron rod a found 5/8-inch iron rod marking the northeast corner of the intersection of Southlawn Avenue and Raymond Street, 40 feet wide, bears N 72° 31' 13" W 10.00 feet, thence S 17° 28' 47" W 25.00 feet;

THENCE N 17° 28' 47" E 130.00 feet along the proposed east right-of-way line of Raymond Street, parallel with and 10.00 feet easterly of the existing east right-of-way line of Raymond Street, to a set 5/8-inch iron rod for cut-back corner;

SOUTHERN TITLE BUILDING
HOUSTON 2, TEXAS

AMOUNT

A Corporation of the State of Texas

GP +7761

Herein called Company, for value Does hereby guarantee to

hereto styled insured, full title to the above described and aforementioned, that good and indefeasible title to the following described real property:

[illegible]

SUBJECT TO:

1. Following items:

2. Restorative operations affecting the property above described

1. Any discrepancies, conflicts, or shortages in area or boundary lines, or any encroachments or set-backs, or any other matters which a correct survey would show

2. The following are the names of the persons who are

2. Regions of positive or negative

SUBJECT TO:

1. Following liens.

2. Restrictive covenants affecting the property above described.

3. Any discrepancies, conflicts, or shortages in area or boundary lines, or any encroachments or overlapping of improvements which a correct survey would show.

4. Taxes for the years 1911 and subsequent years.

5. Rights of parties in possession.

Said Company shall not be liable in a greater amount than actual Monetary loss of insured, and in no event shall said Company be liable for more than

and shall, at its own cost, defend said insured in every suit or proceeding on any claim against or right to said land, or any part thereof, adverse to the title hereby guaranteed, provided the party or parties entitled to such defense shall, within reasonable time after the commencement of such suit or proceeding and in ample time for defense therein, give said Company written notice of the pendency of the suit or proceeding, and authority to defend, and said Company shall not be liable until such adverse claim or right shall have been held valid by a court of law; and if such adverse claim or right so established shall be for less than the whole of the property, then the liability of the Company shall be only such part of the whole liability limited above as shall bear the same ratio to the whole liability that the adverse claim or right established may bear to the whole property. In absence of notice aforesaid, the Company is relieved from all liability with respect to such claim or demand; provided, however, that failure to notify shall not prejudice the claim of the insured, if such insured shall not be a party to such action or procedure, nor be served with process therein, nor have any knowledge thereof, nor in any case, unless the Company shall be actually prejudiced by such failure.

Upon payment of any loss hereunder, the Company shall be entitled to be subrogated to all rights of insured against all other parties.

Upon a sale of the property covered hereby, this policy automatically thereupon shall become a warranty policy and the insured, his heirs, executors and administrators, shall for a period of twenty-five years from date hereof remain fully protected according to the terms hereof, by reason of the payment of any loss he or they may sustain on account of any warranty contained in the deed executed by insured conveying said property. The Company to be liable under said warranty only by reason of defects, liens or encumbrances existing prior to or at the date hereof (and not excepted above) such liability not to exceed the amount above stated.

Nothing contained in this policy shall be construed as insuring against loss or damage by reason of fraud on the part of the insured, or by reason of claims arising under any obligation of the insured or under any contract, thing, or trust relationship, done, caused, suffered or permitted by the insured.

In Witness Whereof, THE SOUTHERN TITLE GUARANTY CO., INC., has caused a record to be made of its corporate seal to be affixed and these promises to be signed as facsimile by its duly authorized officers under authority of its by-laws, and which seal and signatures are binding on the company when countersigned and validated by an duly authorized secretary, as of this day of

STATE OF TEXAS

1686733

COUNTY OF HARRIS

WHEREAS, by Deed of Trust dated September 21, 1956 and filed for record in the office of the County Clerk of Harris County, Texas, under File No. 1668174, Homestead Realty Corporation conveyed to C. L. Bybee, Trustee the certain real estate described as Lots Thirteen (13) through Seventeen (17), both inclusive, in Block Two (2), of Southlawn Addition to the city of Houston, in Harris County, Texas, according to the map or plat thereof recorded in Vol. 5, Page 46, of the Map Records of Harris County, Texas, to secure the payment of one certain promissory note of even date therewith for the sum of \$6,000.00, executed by it, and payable to the order of Houston Bank & Trust Company on or before sixty (60) days after date, together with interest from date at the rate of 6% per annum.

NOW, KNOW ALL MEN BY THESE PRESENTS: That Houston Bank & Trust Company, the legal owner and holder of said note above described at the time of its payment, hereby acknowledges the full payment and satisfaction of the indebtedness evidenced by said note, and Releases and Cancels the lien of said deed of trust retained upon the above described property to secure its payment.

EXECUTED on this the 27th day of November

1956.

HOUSTON BANK & TRUST COMPANY

day and date last above written.

W. G. MILLER,
Clerk County Court, Harris County, Texas.
By Barbara B. Harris Deputy.

THE STATE OF TEXAS }
COUNTY OF HARRIS } KNOW ALL MEN BY THESE PRESENTS:

That HOMESTEAD REALTY CORPORATION, a corporation,

hereinafter called Grantors whether there be one or more parties executing this deed, for and in consideration of SIX THOUSAND FIVE HUNDRED SIXTY-TWO AND 50/100-----
----- DOLLARS (\$6,562.50) paid to Grantors by the CITY OF HOUSTON, the receipt of which is hereby acknowledged, have GRANTED, SOLD AND CONVEYED and do by these presents GRANT, SELL and CONVEY unto the CITY OF HOUSTON, a municipal corporation, in Harris County, Texas, the following described tract or parcel of land together with all improvements thereon:

Lots Nos. Thirteen (13), Fourteen (14), Fifteen (15), Sixteen (16) and Seventeen (17), in Block No. Two (2), of SOUTHLAWN ADDITION, an Addition in Harris County, Texas, according to the map or plat thereof recorded in Volume 5, Page 46, of the Map Records of Harris County, Texas.

Of the above consideration, the sum of \$6,000.00 represents payment for the land described above, and the sum of \$562.50 represents an additional consideration to be held in escrow by the City of Houston contingent upon the Grantor paving with a 20-foot wide concrete slab (5 inches thick) the street upon which the above described lots face; and said additional amount of \$562.50 is further contingent upon the installation of a water main and a sanitary sewer line running along Southlawn Street from Scott Street West to Raymond Street. Said \$562.50 being held in escrow by the City of Houston is to be paid to Grantor upon certification by the Director of Public Works Department or his representative that installation of the above mentioned facilities has been completed.

Salt Domes

The active faults in the Houston area are caused by the uplift of relatively plastic salt dome or clay sediment. (see Figure 1-3 and 1-4) A salt dome is a roughly cylindrical mass of salt that is typically one to two kilometers in diameter. A salt dome rises through the overlying sediments, from a deeply buried layer of salt. During the vertical movement of the salt layer, the enclosing and overlying sediments may be contorted and become completely faulted.⁶
